

# SIMA, the agricultural exhibition by excellence

16 February 2015 by AUSA

SIMA is the reference agriculture exhibition in France, with nearly a century of history. During the last edition, almost a quarter of a million professionals from 145 countries visited it.

In the current edition, which will take place in Paris from 22<sup>nd</sup> to 26<sup>th</sup> of February, AUSA will be together with more than 1.740 international expositors that will assist to the event.

AUSA, who is devoted to the innovation, will present in SIMA 2015 the novelties related to Telehandlers (Taurulifts) range and all-terrain Forklifts range where we can find the following ones:

- T 144 H 4wd: It is the most compact telehandler of the Taurulift range, able to offer performance of 1.350kg maximum load, with 2.180mm of maximum range and 3.990mm of maximum height. It is a very maneuverable machine thanks to its 1.410mm of width and 2.400kg of weight, for these reasons it is able to be transported in a small trailer.
- T 235 H: Entering inside the world of the medium telehandlers and escorting to T 204 H, we can find this machine able to move 2.300kg, up to 5.000mm of height and with a range of 2.732mm as maximum. This equipment weighs 4.700kg and has a width of 1.595mm.
- T 307 H: With a maximum capacity of 3.000kg, this Taurulift is the one with more capacity of AUSA's telehandlers. It is able to reach 3.580mm and can arrive up to 7.000mm height. It has a width of 2.015mm and it has a weight of 5.615kg.
- C 150 H 4wd: The C 150 H is the smallest hydrostatic forklift of the AUSA's all-terrain forklift range. It is a Forklift capable of moving 1.500kg of load. All forklift range is completely easy to maneuver thanks to its sizes and a joystick with all functions integrated.
- C 250 H 4wd: Able to move 2.5tn of load to a maximum height of 5.4m. With a width of 1.540mm and a weight of 4.200kg.

All AUSA machines are noted for being compact, all-terrain, perfect for demanding terrains, maneuverable, efficient and secure. Machines specially thought for the most exigent agricultural professionals.

AUSA offers an agricultural kit adapted to the agricultural needs. This kit consists of a quick hydraulic coupling carriage EURO8, fork carriage and forks 1.200 mm, bucket 330 l, closed cab with heating, homologated lighting system, work headlights two front and one rear, hydraulic socket on fork-plate for double control attachment (4 & 5th valve), cyclonic filter in air filter, towing ball, great comfort seat with total regulation, stop emergency in cabin, kit maintenance (1.000 h) and electric take-off for towing.

In SIMA, apart from AUSA presenting special products for the sector, they will inform you about the highlighted novelties. They will give the opportunity to participate in special lotteries, as well. They will appreciate your visit to their stand located in Hall 7, Stand D176.
