

New Laser Scanning and MDC Dealer for Finland

2 March 2015 by TOPCON

Topcon Europe Positioning B.V. (TEP) announces the appointment of a new scanning and mass data collection dealership in Finland.

Located in the city of Helsinki, Nordic Geocenter will promote and distribute Topcon scanning, UAV and mobile mapping products throughout the whole of Finland. "With more than forty years of experience in the field of geomatics, and a particular expertise in the field of scanning, Nordic Geocenter are the perfect distributor for mass data collection solutions in the region, and have been particularly impressed by the performance of our GLS-2000 scanner," said Leighton Davies, business manager for North and West Europe.

"I am excited to work with Nordic Geocenter in Finland, said Davies. "Mr. Hannu Heinonen is a well-known contact in the Finnish Geomatics business and has been active at the high end of the Finnish geomatics market for more than 40 years. Hannu and his team offer professional training, advice and support on the Topcon range of mass data solutions throughout Finland. I wish Nordic Geocenter every success and look forward to the sales of our mass data solutions in the Finnish market."
