

# MERCAPALMA RENEW WITH PIQUERSA

9 March 2015 by Piquersa

*"Supplying the different markets in Palma is a task that involves a core of distribution and organization of existing food resources on the island; this core, fundamental link in the marketing chain, is Mercapalma."* So begins Mercapalma website, central market of Palma de Mallorca and key nucleus in the fresh food supply throughout the island.

Such a complex organization as a central market in an island requires an organization and the highest standards services so that nothing fails. Some of these services have been entrusted for many years to PIQUERSA sweepers. This year some equipment had to be renewed and again, Mercapalma has had PIQUERSA sweepers to keep their facilities in perfectly clean, ready to offer their best products to its customers.

On this occasion, the selected model was the BA-1500-AC: small size sweeper able to access the most difficult areas and collect the heaviest trash. Being a type dumper sweeper, allowing collection of large objects such as pallets or boxes without sacrificing maximum sweeping quality. During delivery, responsible for Mercapalma noted that after more than 40 years of experience and after trying different types of sweepers, they can corroborate that PIQUERSA sweepers are the best cleaning equipment for this type of facilities where the residue concentration is very high every day.

Again PIQUERSA consolidated as a leader in cleaning solutions among major food markets in Spain. Its effectiveness, high performance, durability and very low maintenance costs, make the PIQUERSA sweepers one preferred options in the professionals sweeping sector.
