

Twiga 420 Lands In Thailand

8 April 2015 by Spearhead Machinery Ltd

Spearhead Machinery's Thai distributor Mangkang Kurupan Service Co. Ltd have recently installed a Twiga 420 in Southern Thailand. This 4.2m machine was delivered to Sai Thong sub-district Administrative Organisation for the maintenance and upkeep of their area.

Siphakorn from Mangkang Kurupan Service Co. Ltd explained, 'The Twiga 420 was purchased for its build quality, reliability and performance. Other important factors that had to be considered included ease of use and maintenance for the operators and district's maintenance team'.

Mark Bayliss, Spearhead Export Regional Sales Manager, commented 'The Twiga Compact series are well known amongst the amenity sector so when Siphakorn first contacted us about a new Twiga 420 we knew this machine definitely met the requirements of the end user'.

The Twiga 420 comes with the following features as standard:

- 4.20m reach
- Three point linkage mounting
- Parallel arm geometry
- Totally independent hydraulic system
- 60 litre oil capacity
- 0.90m flailhead
