

Paload presence renewed on the Israelian market

28 October 2015 by Palazzani Industrie S.p.A.

Palazzani reconfirms its presence in the state of **Israel** with the delivery of **two PB 130 thanks to its Dealer Perfect Parts Ltd.**

The Dealer is a family owned business that was developed within the last 50 years. Their business started from a small workshop for repairing Massey Ferguson tractors and by the years a new generation of the family enriched it with deeper knowledge in mechanical engineering, expanding the activities for other brands like Fiat New Holland and John Deere and even for construction machines like JCB.

Nowadays the Company represents exclusively 6 manufacturers of machinery in both agriculture and construction sectors, such as Antonio Carraro, Carraro, Faresin, Tellehandler, Cams mini excavators, Palazzani and MST backhoe loaders.

The small Backhoe Loader model **Paload PB 130** has been individuated by the Company owner Mr. Esam Baransy from the beginning **as the more adapt machine for the market.**

"It is a reliable mini machine, quick and strong that has all the capabilities of a backhoe. The PB 130 specifications enables it to reach even the tightest places. It has an excellent steering capability combined with very good visibility for the operator. We are aiming to compete with JCB machine because it is the only compact BHL in the market", says the owner.

The machine mainly works to remove debris from tight places, to dig trenches, place sprinklers in football fields without damaging the grass, covering channels, covering pits, planting trees, for the disposal of garden waste, laying pipes, etc.

The customers mostly come from the construction sector, but because of the wide capabilities of PB 130, customers from the agricultural sector also find it as an answer for their needs.

"Paload PB 130 has many applications in one machine. The Israeli market needs one answer for various problems. Thus the Palazzani PB 130 with all its capabilities is especially good for the Israeli market" says Mr. Esam Baransy.
