

NEW FROM JOHN DEERE AT THE GAME FAIR

11 July 2011 by John Deere

New tractors and Gator utility vehicles are featured on the John Deere/Farol stand (no. H0793) at this year's CLA Game Fair, which is being held at Blenheim Palace, Oxfordshire from Friday 22nd to Sunday 24th July.

John Deere offers a comprehensive choice of machines from heavy-duty lawn tractors to versatile compact and utility tractors from 24 to 100hp.

Latest models include the 3036E, a simple tractor for basic tasks at a low price, as well as Premium full-specification 20 Series tractors equipped with the latest technology, quiet air conditioned cabs, AutoConnect mower decks and quick-attach front loaders.

A range of new, exclusive features and options have been introduced for the 3020 and 4020 Series compact tractors for 2011, to provide even greater versatility, productivity, operator comfort and safety. These include new multiple hydraulic options on all models, a new front hitch and pto for the 3020 Series, radio ready cabs that include a holder for iPods and MP3 players, monitor mounting points and cable access, an improved ROPS design and a 12V outlet on all open station models.

All machines can be bought with new PowerGard maintenance plans and flexible finance programmes from John Deere Credit – for further details, call Freephone 0800 085 2522 or visit the company's website at www.JohnDeere.co.uk, where you can watch video clips of the new tractors in action, featuring demonstrations of the drive-over deck and quick-attach loader.

John Deere's new XUV 855D 4x4 Gator utility vehicle is also on show at The CLA Game Fair. Olive & black livery, improved braking and suspension and increased load capacity are among 13 new features on this newly styled XUV Gator. This is the fastest and most powerful diesel model in the company's range, and features a true four-wheel drive traction system, activated by a dash-mounted electronic switch.

The 25hp diesel engine is the most powerful in its class and delivers the highest top speed at 32mph (52kph), working through a proven dual range constantly variable transmission. Load capacity of the new deluxe cargo box is a best in class 460 litres, while total payload is 635kg and towing capacity has increased by 90kg to 680kg. The cargo box features a truck-style tailgate latch for easy operation with one hand, and over 20 integrated tie-down points for securing loads. The standard four post ROPS frame can be upgraded to a deluxe full glass cab if required.
