

Yanmar further expands its dealer network

30 November 2015 by Yanmar Construction Equipment

The entire Yanmar portfolio is now available at Schreiber Baumaschinen.

The dealer network of Yanmar Construction Equipment Europe S.A.S (Yanmar CEE) is constantly growing: Schreiber Baumaschinen GmbH & Co. KG (Schreiber) based in Bremen is its latest member. For more than 80 years, the company has been selling and renting construction machinery in the compact sector at several locations. It offers comprehensive services and ensures fast delivery of spare parts. Schreiber's customers mostly belong to the building and road construction sector as well as to civil engineering. Now, they all benefit from the entire Yanmar product range. The robust Yanmar machines are multifunctional and complement Schreiber's portfolio in an optimal way. With the new dealer, the construction equipment manufacturer from Japan further strengthens its dealer network in the Bremen region.

„With Schreiber, we have won a further competent distribution partner for the northern German market“, says Andreas Hactergal, Sales and Marketing Director Yanmar CEE. „The company is very well connected in the region and it serves customers from various sectors. Now, also civil engineering companies have direct access to Yanmar-products. We look forward to a good cooperation.“

Bernd Burzlaff, Managing Director Schreiber, says: „With Yanmar, we complement our portfolio in the compact section. We know our customers' needs and requirements – these are perfectly met by Yanmar products. Our service ensures that the Yanmar machines are always fully operational.“

Yanmar CEE offers its dealers high-class machines in premium quality. Besides powerful mini excavators, compact excavators and carriers, an own range of wheel loaders is part of Yanmar CEE's product line since September 2015.
