Caterpillar Develops Battery Electric Proof of Concept Load-Haul-Dump (LHD) Loader

The test machine is a proof of concept for packaging and performance of a lithium based energy storage solution Caterpillar plans to bring to the LHD market. The Cat® R1300G proof of concept does not represent a final design that will go to market. After testing, Caterpillar will launch a full-fledged new product introduction program that follows a more in-depth, rigorous design and validation process. [Read more>>](#)

Behind the Wheel: CASE supports Team Rubicon for Hurricane Harvey disaster relief efforts

Follow the real life heroes from veteran-led disaster relief organization Team Rubicon as they work to assist those stricken by the effects of Hurricane Harvey in the U.S. state of Texas. Supporting their efforts, not just in this instance, but on a longstanding basis is CASE Construction Equipment, providing machinery and training to ensure they are able to deliver the best care possible. The Defence Minister of the Federal Republic of Germany hands over 126 vehicles to the Kingdom of Jordan

Dr Ursula von der Leyen, Defence Minister of the Federal Republic of Germany, handed 126 Mercedes-Benz commercial vehicles over to representatives of the Kingdom of Jordan in Amman. This aid is part of the so-called enabling initiative by which the federal government wishes to support trustworthy states in crisis regions in the fight against terrorism. The 56 Sprinter Transfer 23 minibuses handed over to Jordan are intended to transport security personnel and refugees. [Read more>>](#)

Compellingly different: SENNEBOGEN 8100 EQ balance material handler revolutionizes scrap handling

Robert Cimoszynski and Janusz Majewski, the two managing directors who run the family company, are currently experiencing an increase in visitor numbers to their 5.0 hectare scrapyard in Tarczyn. And they are not coming because of the yard's beautiful location between lakes and orchards, around 25 km from the Polish capital of Warsaw, but because they want to see the new green SENNEBOGEN 8100 EQ balance material handler. [Read more>>](#)

Two new Demag crane models featuring MTU Engines from Rolls-Royce

The two new Terex Cranes models are all-terrain cranes, able to move on or off-road, making them ideal for building telecomm towers and overhead cable masts, power stations and container terminals as well as for use in rescue and recovery operations, and for revision and testing activities.
