

Bauma 2019 ZOOMLION opens up to Europe with the new company ZOOMLION CIFA Europe, new products and more and more customer - oriented services

1 February 2019 by Zoomlion

3 product lines, a new distribution logistics centre for Europe and new business services for lifting and logistics operators

Zoomlion CIFA Europe - the new company specialized in the sale of forklifts and mobile and tower cranes - will be present at Bauma 2019 at the stand of the Zoomlion Heavy Industry group (external Pad, stand FS905/2) with numerous product novelties and a range of services for its business partners.

At Bauma 2019, Zoomlion CIFA Europe will offer a complete range of lifting solutions including forklifts, stationary and mobile cranes. They are high performant, reliable, solid products, designed by Zoomlion that have been present on the world markets for several years - here available in a European configuration, and CE marked. Specifically, the following will be presented:

4 forklifts:

- Counterbalanced 4 wheel 3 on with diesel engine and 4.8 meter triplex maximu lifting mast
- 2 - 4 ton - wheel counterbalanced electric forklift truck with 4.5 meter triple x mast
- 1.8 - 3 ton - wheel electric forklift truck with 4.5 meter triplex mast
- 1.6 meter electric stacker and 4.6 meter triplex mast

The forklifts will be presented with a full optional package.

Tower crane T7020 12H (CE)

This Flat Top crane, specifically designed for European customers, has a maximum reach of 70 m and a 12/2 ton capacity, which will be mounted with a 35 meter boom, height 25.4 m, installed on a carriage with 4.5 x 4.5 meter adjustable feet.

This product is appreciated for its robustness and ease of assembly, precision in machining and rotation, which allow very precise maneuvers.

Mobile cranes

- ATC 1000 (100 ton maximum capacity on 4 axles with 55 meter telematic boom)
- ATC 960 (60 ton maximum capacity on 3 axles with 48 meter telematic boom)

The two mobile cranes have been designed and manufactured in Italy with components exclusively manufactured in Europe and with "Made in Italy" design. In addition to the products mentioned, Zoomlion CIFA Europe will present a range of services aimed at its dealers who can count on a new distribution logistics hub of over 1,200 m² for the European market and based in Italy at the company's headquarters in Senago (Mi).

The customer will have the opportunity to view the machines in stock, configure the products according to their needs, obtain original spare parts and rely on the expertise of technicians and specialized consultants in the new hub.
