

ATN Platforms has been designated Jekko official importer in France

30 June 2020 by Jekko

ATN Platforms, French manufacturer of aerial work platforms and part of Fassi Group, has been recently named Jekko official importer in France, taking the place of Fassi France. "It is with great pleasure that ATN Platforms takes over from Fassi France for the distribution of Jekko mini cranes. For more than 10 years, Fassi France team has done remarkable work in promoting Jekko brand and ensuring high-quality after-sales service. To meet the growing interest of rental companies in this type of crawler crane, ATN Platforms is proud to add Jekko mini cranes to its range of aerial work platforms" comments Mr. Christophe Burel, ATN Platforms Sales Manager.

ATN Platforms products are specially designed to meet the needs and requirements of rental companies. "Jekko products are very close to the ones of ATN Platforms as regards sectors and potential customers, so it has been a natural passage - adds Mr. Alberto Franceschini, Jekko Sales Manager - ATN Platforms is an experienced company with a good market knowledge, also thanks to the expertise of Mr. Frédéric Leclerc, Jekko Product Manager at ATN Platforms, and this results in a great advantage for Jekko."

From 9th to 11th September ATN Platforms will take part in JDL exhibition, the annual trade fair dedicated to handling, lifting, transporting and elevation of people, and at its stand some of the latest models by Jekko will be also on display.
