Drogheda Hire Acquires Sinoboom Micro Scissors

8 March 2021 by Sinoboom

Irish rental company Drogheda Hire & Sales Ltd have taken delivery of the first Sinoboom 1330SE micro scissor models sold in the Republic of Ireland.

The Sinoboom 1330SE micro scissor combines a 5.8m working height and a spacious 1.34m long deck, 240kg, 2-person capacity, with an additional 0.6m 100kg-capacity extension deck. Features include an electric DC motor drive, powered by 2x 12V maintenance-free AGM batteries which are charged via a battery-specific charger in the base, while additional advantages of the 1330SE are the high build quality and long-lasting electrophoretic paint technology, which have become synonymous with the Sinoboom product range.

General Manager Danny Dunne took delivery of five of the machines at the company Head Office in Drogheda from Julie Houston Smyth, UK & Ireland Regional Manager for Sinoboom. Danny explains: "We were

impressed by the versatility and quality of this product following our trial process, and are pleased to expand our scissors range with this micro model.” Julie Houston Smyth stated, “We are delighted to work with Drogheda Hire on this their first investment into Sinoboom products and look forward to building this relationship further in the future.”

Based in the Republic of Ireland, Drogheda Hire & Sales Ltd is a division of Irish owned AER Rents - the O’Flaherty Holdings Group – who are also owners of UK-based Mr Plant Hire and who more recently acquired Mainline Hire Group. The units were supplied via Sinoboom’s European subsidiary which is based in Rotterdam and provides full aftersales and support to customers across Europe through a network of partners.
