

XCMG DISPLAYS SEVERAL NEW PRODUCTS AT BICES 2013

29 November 2013 by XCMG

On October 15, the 2013 Beijing International Construction Machinery Exhibition & Seminar (BICES 2013) kicked off at Beijing Jiu Hua International Exhibition Center, during which XCMG, which had led China construction machinery industry for 24 consecutive years, displayed all of its products in the indoor stand for the first time. Located in C venue, XCMG stand takes a floor space of 1200 square meters, making XCMG become the largest indoor exhibitor.

At this exhibition, all products displayed by XCMG are new products with proprietary intellectual property that were developed by XCMG through technological innovation according to the market demands, and they can even match international advanced products.
