New TERRASEM with working widths of 8 and 9 metres

The TERRASEM V 8000 D for efficient, high output drilling

IMAGE SOURCE: PÖTTINGER Landtechnik GmbH

There are many factors involved in sowing: The optimum sowing time depends on the type of plant, the duration of sunshine, and temperature. These weather-dependent time windows are getting shorter and shorter, so efficient, high output drilling is decisive. [Read more >>](#)

CTE wins at the IAPA Awards with S3 EVO

CTE wins at the IAPA Awards with S3 EVO

IMAGE SOURCE: CTE Lift

Innovation and safety for **CTE** are areas that go hand in hand, supporting each other in the development of new technologies that are continuously improving for work at height. And so, on Thursday 10 March, at the IAPA Awards 2022 in London, CTE was awarded in the Technological Innovation category with S3 EVO. [Read more >>](#)
