ESCO® Nemisys® G.E.T. System Expands to All Mining Buckets

Nemisys

IMAGE SOURCE: ESCO Group LLC

The Nemisys system has demonstrated market leadership in reliability, site safety and enhancing machine performance. **ESCO** Nemisyslip and G.E.T. systems are now available for all mining buckets. The Nemisys tooth system is a field-proven performer with installation on over 750 machines worldwide. [Read more >>](#)

Bauma 2022: Kleemann presents a world premiere and sustainable solutions for the quarry and recycling

High performance individually or as a team: the cone crusher MOBICONE MCO 90(i) EVO2 and the jaw crusher MOBICAT MC 110(i) EVO2 from Kleemann.

IMAGE SOURCE: Wirtgen Group; Kleemann

At this year's Bauma, **Kleemann** presents innovations from its comprehensive product portfolio with a total of nine mobile crushing and screening plants and its operating concept SPECTIVE. A world premiere is celebrated by the new impact crusher MOBIREX MR 130(i) PRO. [Read more >>](#)

SENNEBOGEN at bauma 2022: Broad range of machinery for the construction industry on display

At bauma 2022, SENNEBOGEN will present an extensive portfolio of machines for the construction industry directly at its booth.

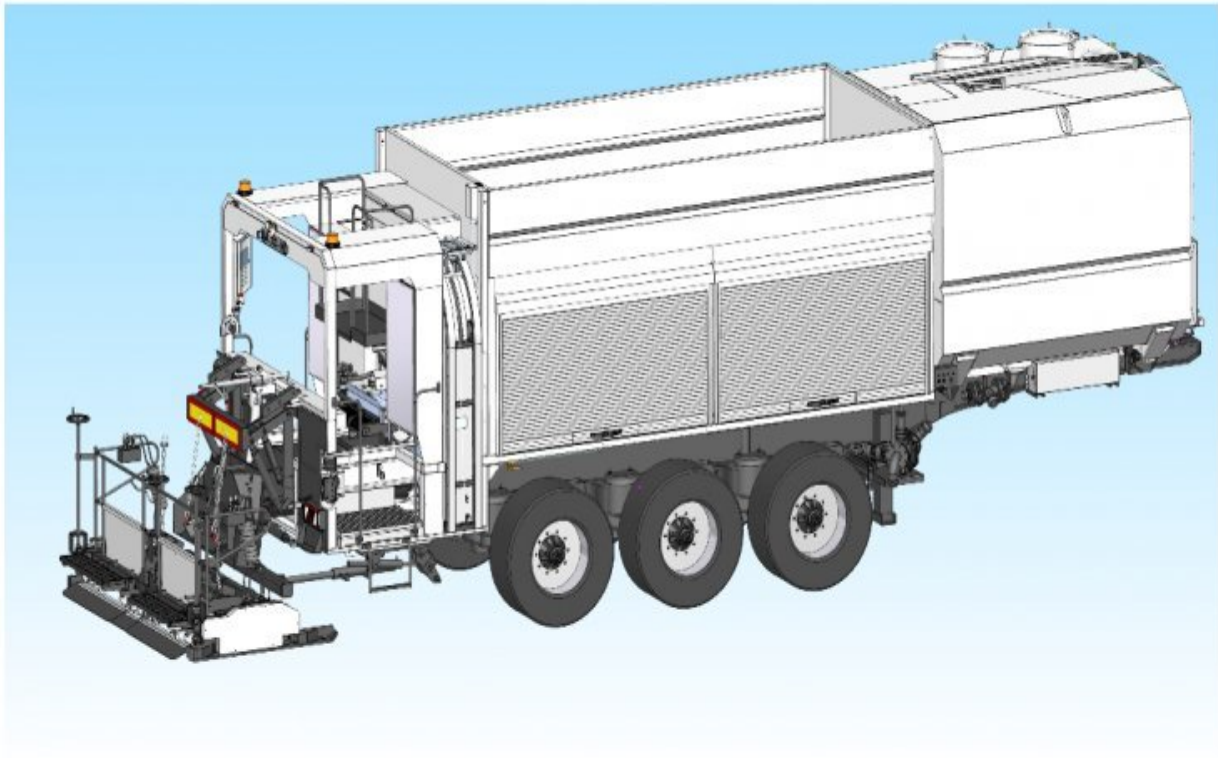

In addition, interested customers can see many other machines during a factory visit in Straubing. The nearby plant will be conveniently accessible from the trade fair by bus shuttle.

IMAGE SOURCE: SENNEBOGEN

With more than 70 years of experience in the design and construction of high-quality crane and lifting technology, the green **SENNEBOGEN** machines have been impressing customers worldwide for decades.

Plant & Hire Aid Alliance: Aid Convoy: 16th and 17th October 2022

Plant & Hire Aid Alliance: Aid Convoy: 16th and 17th October 2022

IMAGE SOURCE: Ardent Hire

The continuing war in Ukraine is likely to leave vast swathes of the population struggling as Winter approaches. The ruling Russian elite will be hoping that the Western media loses interest in the war so that they can continue their invasion as part of fulfilling their aims. Already their hopes are becoming reality. [Read more >>](#)

Western Star Introduces All-New 57X

Western Star Introduces All-New 57X

IMAGE SOURCE: Daimler Truck AG

Western Star today introduced the latest addition to its X-Series, the all-new Western Star 57X. The on-highway truck joins the new Western Star 47X and 49X to complete a lineup purpose-built for toughness, productivity and efficiency. “With the addition of the 57X, Western Star’s new X-Series now rises to the next level,” said David Carson, senior vice president, sales and marketing, **Daimler Truck** North America (DTNA).

Powerful energy storage unit increases mobility

The exhaust-free and noiseless STIHL PS 3000 is the most powerful mobile energy storage unit of its weight class. Furthermore, the dust and splash-proof (IP54) power station can be used in the rain.

IMAGE SOURCE: STIHL

In order to enable professional users not to have to worry about the all-day usability of their cordless tools, charging the batteries at the place of use is an important prerequisite as well. With the PS 3000, **STIHL** is now introducing a power station that provides a power supply independent of the nearest power outlet. [Read more](#)

Extensive portfolio of products for cost-effective concrete paving with inset and offset paving methods

World premiere: With lifting columns connected directly to the chassis, the application-optimised configuration of the SP 20(i) enables efficient paving of monolithic concrete profiles with a height of up to 2.0 m or concrete surfaces with a maximum width of 2.5 m.

IMAGE SOURCE: WIRTGEN GROUP

In addition to the SP 15(i) and SP 20(i) offset pavers at this year's Bauma, **Wirtgen** is also showing a complete paving train for fully reinforced concrete paving. This consists of a WPS 102(i) placer/spreader, an SP 94(i) inset paver and a TCM 180(i) texture curing machine. [Read more >>](#)
