New Holland presents driverless T8 Tractor with Raven Autonomy™

T8 with Raven Autonomy

IMAGE SOURCE: New Holland Agriculture

New Holland presents T8 tractor with Raven Autonomy, the driverless grain cart harvest application, at SIMA 2022. It is the next step in the development of its market-leading precision and autonomous technology offering with the new T8 with Raven Autonomy™. It integrates OMNiDRIVE, the first driverless agriculture technology for grain cart harvest operations, which originated as an aftermarket solution developed by Raven in 2019. [Read more >>](#)

New 2023 Case IH Vestrum CVXDrive tractors bring better performance, functionality and driving characteristics

Case IH Vestrum 130 CVXDrive on road

IMAGE SOURCE: CNH Industrial N.V.; Case IH

New features and design refinements incorporated into the four 2023 **Case IH** Vestrum CVXDrive tractors further enhance the performance, functionality, comfort and driving experience provided by these popular models. Highlights include enhanced CVXDrive transmission, the latest AFS Pro 700 Plus display, up to four full electrohydraulic rear valves, wet clutch front PTO, and improved fit & finish. Successful “Sales Fair”

At its parallel large-scale demonstration at the nearby Obermayr gravel pit, the German SBM dealer Kurz presented, among other plants, the REMAX 450 impact crusher.

IMAGE SOURCE: SBM Mineral Processing GmbH

Those responsible at **SBM Mineral Processing** are highly satisfied with the results of the last BAUMA. "Everything was just right: The weather, the atmosphere, our products and, of course, the results!" said Managing Director Erwin Schneller in an initial assessment. The Austrians were present in Munich with a team of more than sixty of their own employees from the concrete mixing technology and processing technology divisions. [Read more>>](#)

SENNEBOGEN at bauma 2022: strong appearance of the INNOVATION PACEMAKER

SENNEBOGEN guarantees worldwide presence with more than 180 international sales partners and with over 300 service points. With a large, international team and a total of 12 machine exhibits from all application areas, SENNEBOGEN also welcomed the large number of bauma trade fair visitors, which exceeded all industry expectations.

IMAGE SOURCE: SENNEBOGEN

With its more than 2100 m² stand in the center of the outdoor area, **SENNEBOGEN** was not only once again the "Green Heart of bauma" in 2022, but also impressively asserted its position as INNOVATION PACEMAKER in the 70th year of the company's history. "I never believed that a face-to-face encounter could be replaced by a digital experience, and I am immensely pleased that bauma proved just that. [Read more >>](#)

Faresin Industries at Eurotier 2022: Smart technology to support the farmer

Full electric range

IMAGE SOURCE: Faresin Industries

Faresin will attend the next edition of Eurotier, which is returning after a two-year stop because of the health emergency. From 15 to 18 November 2022, the Vicenza-based industry will present visitors with the latest innovations for its mixer wagons and telehandlers. These are intelligent machines that guarantee measurable profitability for farms and are ready for the agriculture of tomorrow. [Read more >>](#)

Two steps ahead: the Vögele Dash 5 road pavers

World premiere at Bauma 2022: the SUPER 1900-5(i) and SUPER 2100-5(i) Highway Class pavers from Voegle.

IMAGE SOURCE: WIRTGEN GROUP

Road construction companies are equipped for the future with **Voegle's** latest-generation SUPER 1900-5(i) and SUPER 2100-5(i) Road Pavers and AB 500 and AB 600 Extending Screeds. Highway Class pavers are perfectly at home whether on highways or handling other demanding large-scale projects. The SUPER 1900-5(i) manages pave widths between 2.55 m and 11.5 m, the SUPER 2100-5(i) up to 14 m. [Read more >>](#)

New Hyster® double stacker to optimise productivity in logistics operations

New Hyster double stacker to optimise productivity in logistics operations

IMAGE SOURCE: Hyster®

Hyster has added the new S2.0SD platform double stacker to its range of dependable warehouse equipment to help operations increase productivity, while managing costs. The new Hyster® stacker truck, which can handle loads up to two tonnes, enables double stacking and handling of open sided pallet loads, as well as the transportation and loading or unloading of pallets stacked two high in a trailer.
