Are you looking for a comprehensive solution for working in confined spaces?

22 May 2023 by Anmopyc

- Tractel's latest addition to their product line is Davitrac, a comprehensive solution for working in confined spaces
- Davitrac has a lifting capacity of 500 kg and a 360-degree rotating mast
- It offers a secure anchorage point for suspension work and is adaptable for rescue situations
- Davitrac is compatible with a wide range of Tractel® products, allowing for a variety of configurations
- It can be used with individual fall protection systems that comply with EN 360, EN 353.2, and EN 355, as well as rescue systems that meet EN 1496 and descent systems that comply with EN 341

- Davitrac complies with EN 795-A: 2012 (fixed anchorage point), EN 795-B: 2012 when using with its self stabilizing base (mobile anchorage point), and CEN/TS 16415:2013 (fall protection for two people)
- Ideal for rescue operations, confined spaces, rope work, wells, sewers, pipes, oil and gas, civil engineering, industries, and wind and solar installations
- Choose Davitrac from Tractel for a versatile and reliable solution for working in confined spaces

Look no further than Davitrac, the latest addition to Tractel's product line.

With a lifting capacity of 500 kg and a 360-degree rotating mast, Davitrac is perfect for lifting materials and offering a secure anchorage point for suspension work. It is also adaptable for rescue situations, offering complete fall protection and freedom of movement for two users working simultaneously.

Davitrac is compatible with a wide range of Tractel® products, allowing for a variety of configurations. It can be used with individual fall protection systems that comply with EN 360, EN 353.2, and EN 355, as well as rescue systems that meet EN 1496 and descent systems that comply with EN 341.

Ideal for rescue operations, confined spaces, rope work, wells, sewers, pipes, oil and gas, civil engineering, industries, and wind and solar installations, Davitrac complies with EN 795-A: 2012 (fixed anchorage point), EN 795-B: 2012 when using with its self stabilizing base (mobile anchorage point), and CEN/TS 16415:2013 (fall protection for two people).

So if you're looking for a versatile and reliable solution for working in confined spaces, choose Davitrac from Tractel: <https://www.tractel.com/global/product/davitrac/43199>
