Case IH set to play key part in potato Europe 2023

Case IH at Potato Europe Fair

IMAGE SOURCE: CNH Industrial N.V.; CASE IH

Case IH is to be the exclusive tractor supplier and one of the main sponsors at Potato Europe 2023, one of the world's largest exhibitions for potato growers. In addition to supporting an event that is the primary technical show for the crop in Europe, Case IH also plans to use its presence to give new products their first public display...[Read more >>](#)

"Workshop 4.0" for construction companies

Workshop 4.0 for construction companies

IMAGE SOURCE: AREALCONTROL GmbH

The progressive digitalisation and networking of vehicles and machines are becoming increasingly important in the construction industry. Workshop 4.0 enables vehicles and machines equipped with telematics systems to collect and analyze data in real-time. This data is used to optimize the maintenance and repair of the machines, reduce costs and minimize downtime. [Read more >>](#)

Large milling machine technology now integrated in compact milling machines of the F-Series

The Wirtgen W 100 Fi compact milling machine milled the asphalt on the narrow cycle lane quickly and precisely.

IMAGE SOURCE: WIRTGEN GROUP

Small to medium-sized construction sites in inner-city areas often give rise to challenging situations in terms of navigating obstacles and offloading material. In the rehabilitation of an almost 2 m wide cycle lane in Aachen, the new W 100 Fi did a great job in a very confined space. [Read more >>](#)

With Machine26 small construction companies can sell as professionally as large construction companies

Yannick Lindemann of Lindemann
