The Plant and Hire Aid Alliance convoy is on the road once again!

Employees of Ardent hire packed the vans in the UK

IMAGE SOURCE: Plant and Hire Aid Alliance

The Plant and Hire Aid Alliance consists of like-minded companies in the plant and plant hire industry who are acting together to support the humanitarian effort in Ukraine. Since its founding in 2022, the organisation has delivered more than £4 million worth of humanitarian material to Ukraine. [Read more >>](#)

CurveControl for AMAZONE centrifugal broadcasters

Every field has borders and curves.

IMAGE SOURCE: AMAZONEN-WERKE H. DREYER SE & Co. KG

The CurveControl software option adjusts the lateral distribution to the various cornering speeds and corrects the movement of the spread pattern in centrifugal fertiliser broadcasters when driving around bends. This results in more uniform crops and helps prevent of undesired over-fertilisation inside the bend as well as fertiliser placement beyond the field boundary. [Read more >>](#)

World's biggest pothole pro fleet set to fix Britain's road

Dawsongroup is adding 50 JCB Pothole Pros to its fleet

IMAGE SOURCE: J. C. Bamford Excavators Ltd.

The biggest fleet of **JCB** Pothole Pros - a machine which fixes potholes in eight minutes flat - is set to hit the road in the UK after one of the country's leading hirers placed a massive order for 50 machines. Commercial asset supplier Dawsongroup has already bought 11 JCB Pothole Pros – but all are now out on long-term hire with councils up and down the country, with more urgently needed. Ariens Arrow E - Latest generation battery stand-on lawn mower

The advantages of a stand-on mower are its compact dimensions, its enormous manoeuvrability, its ergonomic driving position and its excellent visibility thanks to a full view of the entire mowing deck.

IMAGE SOURCE: AriensCo GmbH

Ariens mowers are built for daily, commercial use. This also applies to the battery version of the Ariens Arrow stand-on mower, the Arrow E. It combines the advantages of a stand-on mower with those of the latest replaceable battery technology. Professional users benefit from the comfortable working position and can also operate jobs in noise and emission-sensitive zones. [Read more >>](#)

New Version of Bobcat S450 Skid-Steer Loader for MEA

Bobcat S450

IMAGE SOURCE: Bobcat

Bobcat has launched an enhanced version of the company's market-leading **S450** M-Series skid-steer loader for the Middle East and Africa (MEA), offering a new control option for the first time in this model. The updated S450 model also comes with the proven 2.4 litre mechanical engine already in use in the larger Bobcat **S510** and **S530** models in MEA instead of the original 2.2 litre engine. The peak of sales of truck tractors has passed. What did you buy in September?

The peak of sales of truck tractors has passed. What did you buy in September?

IMAGE SOURCE: Automotive Market Research Institute

Experts of the Institute of Car Market Research analyzed the statistics of vehicle registrations in Ukraine during September and identified the top models in three segments of truck tractors: import of used vehicles, domestic resale and purchase of new ones. [Read more >>](#)

Royal Visit at JOSKIN

Royal Visit at JOSKIN

IMAGE SOURCE: JOSKIN

5th October 2023 will be a milestone for **JOSKIN**. The company welcomed King Philippe and Queen Mathilde to its historic site in Soumagne, as part of an official visit by the royal couple to the Province of Liège. A visit that JOSKIN sees as a great honour for itself and its staff, but also as a sign of genuine interest in the challenges the agricultural world is facing. [Read more >>](#)

Night shift in Luxembourg: Liebherr crane duo lifts 92-tonne motorway bridge

Crane duo: the Liebherr LTM-1300-6.3 and Liebherr LTM1650.8.1 lift the 92-tonne middle bridge girders on the A3 near Berchem/Luxembourg.

IMAGE SOURCE: Liebherr-Werk Ehingen GmbH

The A3 is a very busy motorway that links Luxembourg and France. In the course of its six-lane expansion, several bridges need to be widened – the Pont Berchem is one of them. ATS Cranes from Luxembourg, a branch of Steil Kranarbeiten based in Trier, together with other business partners, was awarded the contract and lifted the five bridge sections with its **Liebherr** LTM 1650-8.1 and LTM 1300-6.3 crane duo at the end of September 2023. Discovering the heavy machinery inspection process with MEVAS

When the representatives of MEVAS have been in the port of Antwerp for inspection of several motor graders they came across this Bucyrus excavator equipped with a 6 m³ bucket. It was disassembled for transport.

IMAGE SOURCE: MEVAS

A detailed inspection of the machine prior to purchase can save the buyer a lot of trouble and money. Last but not least, if defects are detected and rectified, it can lead to an extension of the life of the machine. **MEVAS**, provides top-notch inspection services for used heavy machinery in over 25 countries. As the leading equipment inspection service in Europe, **MEVAS** has been inspecting second-hand machines since 2006.
