Elevating Performance with the new GIANT G2700E HD Series electric (telescopic) loaders

G2700E HD

IMAGE SOURCE: TOBROCO-GIANT

TOBROCO-GIANT proudly unveils the G2700E HD series, a new addition to its electric (telescopic) loaders range, designed to elevate performance in the emission-free segment. Comprising three models - the G2700E HD, G2700E X-TRA HD, and G2700E TELE HD - these (telescopic) loaders prioritize efficiency, productivity and versatility. [Read more >>](#)

The Wirtgen Group presents impressive climate-friendly technologies for sustainable road construction at Intermat 2024

Wirtgen Group at Intermat 2024

IMAGE SOURCE: WIRTGEN GROUP

The Wirtgen Group draws positive conclusions after the end of the Intermat show in Paris. Numerous professional visitors to the 700 square metre stand showed particular interest in our products and technologies and enjoyed the opportunity to discuss them with our experts at the show and learn more about low-emission technologies and applications from **Wirtgen**, **Vögele**, **Hamm**, **Kleemann** and **Benninghoven**.

Smart Compact in earthworks – automatic compaction to a specified target value

New compactors with Smart Compact With the 20 t and 25 t HC 200i C VA and HC 250i C VA compactors, Hamm is now offering machines that enable automatic compaction to a specified target value in earthworks.

IMAGE SOURCE: WIRTGEN GROUP

With the 20 t and 25 t HC 200i C VA and HC 250i C VA models, **Hamm** is now offering a range of compactors that enable automatic compaction to a specified target value in earthworks. The models are initially available in markets with EU Stage V / EPA Tier 4f exhaust emission standards, further markets will follow in due course. The abbreviation 'VA' stands for Variable Amplitude. An essential element of this technology from Hamm is the equally new, parameter-independent Smart Compaction Value (SCV). [Read more >>](#)

Agrishow 2024: New Holland presents alternative fuel solutions and shows Machine of the Year Brazil-winning front-boom sprayer

Guardian SP310F, Machine of the Year Brazil

IMAGE SOURCE: New Holland Agriculture

New Holland has devoted a key area of its stand at the 29th edition of Agrishow, the largest agricultural fair in Latin America, to its alternative fuel tractor developments, including the T4 Electric Power – the industry's first 100% electric utility tractor concept with automated functions – and the T6.180 Methane Power – the world's first tractor powered by biomethane generated from the decomposition of organic waste and animal manure, and which is commercially available in Brazil.
