ANMOPYC services

21 May 2024 by Anmopyc

- ANMOPYC, founded in 1982, represents 150 companies in the construction and mining equipment sector.
- The cluster includes manufacturers and importers of machinery for earthmoving, compaction, material handling, and more.
- ANMOPYC focuses on innovation, safety, and sustainability, offering R&D&I strategy support and advice on technical regulations.
- The organization promotes international trade through missions, trade fairs, and market research.

- **ANMOPYC advocates for the sector's interests with national and international authorities and forms strategic alliances with related organizations.**

Cluster ANMOPYC, Spanish Construction and Mining Equipment, was founded in the year 1982, and the original purpose of our creation was to defend the interests of companies in the sector at the national and international levels.

Currently, we are a cluster comprised of 150 manufacturing and importing companies of machinery and equipment related to the following:

1. Machinery and equipment for earthmoving, compaction, material handling, and road transportation.
2. Machinery for specialized construction and mining works.
3. Installations and machinery for the production of construction materials.
4. Machinery for the lifting of people and loads.
5. Light and auxiliary machinery.
6. Auxiliary equipment and elements.
7. Components, spare parts, and accessories.

ANMOPYC services:

INNOVATION, SAFETY AND SUSTAINABILITY

- Definition of the R&D&I strategy for the sector.
- Support for innovation and technological development in companies.
- Promotion of technological cooperation projects aimed at digital and green transition.
- Specialized advice on European and international technical regulations.
- Monitoring of technical regulations and standards in development.

INTERNATIONAL PROMOTION

- Organization and support for international trade and market research missions.
- Organization of buyer delegations's visits to Spain and journalists from industry magazines.
- Participation in international trade fairs.
- Personalized advisory services on market and sectors.
- Identification of international business opportunities.
- Market surveillance and analysis.
- Projection of an image of excellence of our productive sector.

REPRESENTATION AND INSTITUTIONAL RELATIONS

- Representation and advocacy for the interests of the sector towards National and International Authorities and Institutions.
- Integration as a member in the governing bodies of sectorial associations.
- Establishment of strategic alliances with other related organisations.
