HİDROMEK takes place at the NordBau fair again this year

23 August 2024 by HİDROMEK

- HİDROMEK will participate in the NordBau Fair in Germany from September 4th to 8th, 2024, showcasing a wide range of products.
- The company will introduce the new HMK 210 LC crawler excavator at the fair, highlighting its innovative features and high resistance to wear.
- HİDROMEK will also display the HMK 150 WR wheel excavator, known for its compact design, high performance, and operator comfort.
- The HMK 635 WL wheel loader will be featured, emphasizing its high performance, versatility, and suitability for various applications.

- The NordBau Fair is a significant event, attracting nearly 600 exhibitors and over 60,000 visitors annually, and is crucial for HİDROMEK's presence in the German market.

HİDROMEK will take place at NordBau Fair in Germany from September 4th to 8th, 2024 with its extensive product range. At booth N241, HİDROMEK will exhibit its backhoe loader, wheel and crawler excavator, wheel loader product groups. Additionally, HİDROMEK will introduce its new products HMK 210 LC crawler excavator to visitors for the first time at NordBau.

HMK 635 WL increases the efficiency of the fields

HMK 635 WL wheel loader fully meets user expectations with its high performance, versatile operation features, operator comfort, and safety. This model, often is used in various fields such as quarries, concrete plants, industrial applications, and public utilities, offers productive and efficient operation with a range of attachment options. HMK 635 WL stands out for its excellent control capabilities and high breakout force in challenging work areas, delivering superior performance as a heavy-duty loader.
