The new Dash 5 road paver proves itself in wind and weather

Construction contractor Johann Joos Tief- und Straßenbau GmbH rehabilitated a 1.3 km section of the L 106 country road between Wagenstadt and Bleichheim with the new SUPER 1800-5i paver from Vögele.

IMAGE SOURCE: WIRTGEN GROUP

The lead contractor used the most versatile **Vögele** paver model of the latest generation for the rehabilitation of the L 106 between Wagenstadt and Bleichheim. With the SUPER 1800-5i, the paving crew was able to work efficiently, safely and precisely, despite adverse weather conditions and a tight completion deadline. [Read more >>](#)

Solutions for compacting warm mix asphalts

Automatic compaction with Smart Compact is an ideal solution for compacting warm mix asphalts.

IMAGE SOURCE: WIRTGEN GROUP

Warm mix asphalts are becoming increasingly important in road construction, and offer great potential for saving energy and cutting CO₂ emissions. Plus, the associated lower levels of vapour and aerosol are also beneficial in terms of occupational health and safety. [Read more >>](#)
