GRI Announces Up to 10-Year Warranty on Pneumatic Tires Across 80+ Countries

7 May 2026 by GRI

- GRI extends its Limited Warranty Policy for Pneumatic Tires up to 10 years, effective from 2026.
- The warranty coverage varies by tire type: 10 years for Agricultural Radial, 8 years for Agricultural Bias, and 5 years for Construction, Earthmover, Industrial, Material Handling, Port & Mining tires.
- The policy applies globally in over 80 countries and covers tires manufactured from January 1, 2025.
- Warranty benefits are exclusive to the original purchaser, reflecting GRI's commitment to quality and customer confidence.

GRI, a leading manufacturer of premium Specialty Tires, is proud to announce a significant enhancement to its Limited Warranty Policy for Pneumatic Tires, effective 2026. With warranty coverage now extended to up to 10 years, GRI reaffirms its unwavering commitment to quality, durability, and customer confidence across Agriculture, Construction, and Material Handling segments worldwide.

A Warranty That Goes the Distance

GRI's updated warranty policy marks a major leap forward from its previous seven-year coverage, reflecting the company's confidence in the superior engineering and materials that go into every GRI tire. The new policy applies to all GRI-branded Pneumatic Tires manufactured on or after January 1, 2025, and covers customers across more than 80 countries worldwide.

What's Covered, and for How Long

The enhanced warranty provides tiered coverage based on tire type:

- Agricultural Radial Tires — covered for up to 10 years
- Agricultural Bias Tires — covered for up to 8 years
- Construction, Earthmover, Industrial, Material Handling, Port & Mining Tires — covered for up to 5 years

Subject to terms and conditions. Coverage protects against defects with credit issued on a pro-rated basis. In the event of a qualifying failure within the first 3 years with no more than 20% wear on Radial tires, customers receive a full 100% credit replacement — a testament to GRI's confidence in its products.

A Promise to the Original End-User

The warranty is extended exclusively to the original end-use purchaser, highlighting GRI's direct commitment to the farmers, operators, and businesses who rely on their tires every day.

Built on Innovation, Backed by Confidence

"This enhanced 10-year warranty is more than a policy update — it is a statement of our conviction in the quality of every tire we manufacture," said Barry Guildford, Global Commercial Director at GRI. "We build tires to perform in the most demanding conditions, and we stand behind them."
