ProStack to Attend Hillhead 2026

24 June 2026 by ProStack (Terex)

- ProStack will attend Hillhead 2026, held from 23–25 June at Hillhead Quarry, Buxton, with a presence on Stand L3.
- Hillhead is a leading UK exhibition for quarrying, construction, and recycling equipment, serving as a key platform for ProStack to showcase its material handling expertise.
- The company will present a range of equipment including telescopic conveyors, tracked and wheeled conveyors, tracked feeders, bulk reception feeders, and port hoppers.
- Neil Robinson emphasizes the importance of understanding customer needs to apply the right combination of conveyors and feeders for efficient site operations.

ProStack[®], a leading manufacturer of bulk material handling equipment, will attend Hillhead 2026 from 23–25 June at Hillhead Quarry, Buxton, with a team presence on Stand L3.

Hillhead remains the UK's leading exhibition for quarrying, construction and recycling equipment, providing a key platform for the ProStack brand to engage with the market and highlight its material handling capabilities across a range of applications.

Visitors to the stand will be able to engage directly with the ProStack team and explore the range of solutions available, including telescopic conveyors, tracked and wheeled conveyors, tracked feeders, bulk reception feeders and port hoppers, designed to support efficient and flexible handling across a variety of applications.

Speaking ahead of the event, Neil Robinson, Business Line Director, said, "Hillhead provides us with an opportunity to speak with customers on the material handling side of the operation, which is critical to overall site efficiency. It's about understanding their requirements and applying the right combination of conveyors and feeders to keep operations running efficiently."
