HiDROMEK will be at NordBau 2026, Germany's long-established fair!

1 September 2026 by HiDROMEK

- HiDROMEK will exhibit at NordBau 2026, a major construction equipment fair held in Neumünster, Germany, attracting over 700 companies and 50,000 visitors.
- The company will showcase its K4 Series mini backhoe loaders, including HMK 62 T crawler and HMK 62 SS wheeled models, noted for compactness, high capacity, and 360-degree rotation.
- These models emphasize operator comfort, durability, and versatility with a wide range of attachments suitable for various industries and tight workspaces.

- **HİDROMEK maintains a strong export presence with over 175 authorized dealers in more than 85 countries, including 15 dealers in Germany, supporting diverse markets with tailored solutions.**

The countdown has begun for NordBau, one of the most important events in the construction equipment sector in Germany and Northern Europe. **HİDROMEK will be showcasing its frequently preferred models at the fair, which will take place in Neumünster from September 9–13.**

NordBau Fair, which has been shaping the construction equipment industry particularly in Germany, Northern Europe, and the Baltic region since 1956, is preparing to open its doors for the 71st time this year. The fair will take place September 9–13 at the Holstenhallen Congress Center in Neumünster, Germany. Held annually and featuring over 700 companies from 15 different countries, NordBau attracts an average of 50.000 visitors. The fair is also of great importance to the construction equipment market in Denmark, which is the event's partner country.

HIDROMEK is preparing to participate in this trade show in Germany, one of its most important markets in Europe, where it has a strong export network, with solutions suitable for the regional market from its various product lines. The company will showcase its products from the mini backhoe loader, excavator, and wheel loader groups. HIDROMEK will be welcoming customers and visitors at the stand numbered N239.

In Germany with K4 Series mini backhoe loaders

HIDROMEK will be exhibiting **HMK 62 T** crawler and **HMK 62 SS** wheeled mini backhoe loader models from its K4 Series at NordBau. In addition to their compact size, these models offer high capacity, delivering superior performance in tight spaces, agricultural fields, and urban areas, while their advanced maneuverability ensures high productivity. HIDROMEK mini backhoe loaders, which can rotate 360 degrees around a single

point, also make a difference in cycle times.

At the same time, these mini backhoe loaders, which have taken operator comfort and durability to the next level with the transition to K4 Series, make work easier on every job site thanks to their wide variety of attachments. As a result, these models, which can handle a wide range of tasks across various industries, stand out as some of the most reliable and hardworking members on the work site.

Maintaining its export strength through a customer-centered approach

With its customer-centric approach to product development, HİDROMEK is able to offer the right and effective solutions for all markets within its extensive export network. By expanding its product range to accommodate

both diverse geographical conditions and various industries, HİDROMEK supports customers around the world with its wide tonnage range, compatibility with countless attachments, diverse equipment options, and technological innovations.
