These numbers were collected from the [LECTURA Specs](https://www.lectura-specs.com) website over the last 10 months. The site registered a total of **1.056.658** model pageviews. This data can be interpreted in numerous ways, many of which are illustrated for you here.

[LECTURA Specs](https://www.lectura-specs.com) is free database of machinery specifications, pictures, videos and data sheets for over 96.750 models from construction machinery, agriculture machinery, material handling machines, and much more.

After an extensive overhaul process, [LECTURA Specs](#) re-launched in October 2015 and the amounts of traffic and machine information have been increasing ever since. To celebrate our one millionth page view, we created this report. Having such large amounts of data at our disposal lets us present interesting analyses to the public, just like the ones you see here.

[LECTURA Specs](#) contains information on over 96.750 machine models from nearly 1.200 manufacturers in various industry categories. 35% of our visitors come to see what's available on the market before they buy a machine.
